

Hello Goodbye

Hey goodbye, I guess I messed up again
Thought I'd change, but still I'm the way I am
I know I'll always be the same and I accept the blame
For the sorry state that I'm in
Hey goodbye, there's no use in trying
Cause if I stay, there's no end to the crying
She deserves way more so I'm walking out the door
For once I'll be kind and I'll make up her mind

She's so sick of me begging forgiveness
Cause you and I, we both know I did this
I'm jaded, I'm hated
You're the only friend of mine
Pleased to meet you, hello goodbye

Hey goodbye let's open a bottle
And forget about an empty tomorrow
It's hard to face the truth, that it's just me and you
For once I did what's right and I made up her mind

She's so sick of me begging forgiveness
Cause you and I, we both know I did this
I'm jaded, I'm hated
You're the only friend of mine
Pleased to meet you, hello goodbye

Oh I wish I was a better man
Oh but I'm stuck with goodbye as I am
I'm jaded, I'm hated
You're the only friend of mine

She's so sick of me begging forgiveness
Cause you and I, we both know I did this
I'm jaded, I'm hated
You're the only friend of mine
Pleased to meet you, hello goodbye
